**IMPLEMENTATION GUIDELINES  
FOR COLLOCATION OF NSA PERSONNEL IN CIA AND THE  
ASSUMPTION BY CIA OF NSA'S [ ] RESEARCH SUPPORT**

25X1B

1. NSA will assign ten professional employees on indefinite detail to CIA's Central Reference Service (CRS). This manning level will be subject to renegotiation in accord with changing workload. CIA will approve the selection and continuing assignment of NSA personnel to this project. The NSA personnel must meet CIA security criteria.

2. The NSA personnel will be integrated into the Information Services Group (ISG) of CIA's CRS. CRS will assign the NSA personnel to country desks and such personnel will be responsible for all the functions of the given desk. CIA will provide supervision, performance evaluations, and on-the-job training.

3. NSA will continue to process and pay the salary and other related costs of its personnel. Housekeeping and clerical costs, including courier service, mailing, reproduction, etc., associated with the operation will be assumed by NSA if requested by CIA.

4. CIA/CRS will continue to determine the scope and coverage of [ ] information files within the responsibilities assigned to it under DCID 1/9. NSA will provide the manpower and resources required for the extension of CRS files coverage or the building of new [ ] files identified by it as critical to NSA support requirements. Such extensions, however, will be subject to approval by CIA in terms of the latter's operating and related commitments. In general, CRS will not process materials [ ] files solely in response to NSA requirements.
